

B2B COMMERCIAL FLEET GROWTH LAUNCH

Five days to put A1 Truck & RV Center's commercial acquisition engine to work.

A separate fleet focused presence, direct B2B outreach and measurable pipeline - built without disturbing the existing A1 Body & Glass social operation.

5

calendar days

40-60

target fleet accounts

30-45

decision-makers

1

operating B2B system

This is not a “social media project.” It is a commercial fleet pipeline.

The new digital presence supports the sales process, but the main engine is targeted B2B activity: find fleet companies, reach the decision maker, create a conversation, route it to A1 and track the result.

POSITION

Separate Fleet Identity

A1 Truck & RV Center gets its own commercial presence while still pointing to the main A1 corporate brand/domain.

ACQUIRE

Direct B2B Outreach

Email, phone and LinkedIn are used together to reach fleet managers, operations teams and business owners.

MEASURE

Visible Pipeline

Management sees account, contact, response, meeting, repair opportunity and next action.

Management success metric: qualified commercial conversations and repair opportunities - not follower count.

Launch Tuesday. Operate through Saturday. Nothing waits for Monday.

Day 1

Tue 25

- Fleet positioning
- Subdomain / email aliases
- B2B landing build
- Account structure
- First targets

Day 2

Wed 26

- LinkedIn
- Instagram
- Facebook
- Content starter pack
- Decision makers

Day 3

Thu 27

- Email campaign
- Calls
- LinkedIn outreach
- Pipeline active
- Follow-up #1

Day 4

Fri 28

- Second account wave
- Reply handling
- Meetings
- Content live
- Optimize messaging

Day 5

Sat 29

- Campaign operating
- Pipeline review
- Executive report
- Next 30 days
- Handoff to operate

Five-day operating targets and early-stage outcome ranges.

40-60

Target Accounts

Named companies with commercial fleets researched and prioritized.

30-45

Decision Makers

Fleet, operations, maintenance, transportation or owner contacts.

35-50

Personalized Emails

Direct B2B outreach from the A1 commercial identity.

25-40

Call Attempts

Priority-account phone follow-up.

20-35

LinkedIn Touches

Company/decision-maker connections and follow-up.

5-10

Responses / Live Connects

Expected early-stage range from concentrated outreach.

2-5

Qualified Conversations

Fleet needs, backup vendor or current repair discussion.

1-3

Meeting / Tour Targets

Calls, meetings or facility walkthrough targets.

Targets and expected ranges, not guaranteed sales. A live repair need can appear immediately, but many B2B fleet accounts convert after the first five days.

WHAT THE NEW PRESENCE LOOKS LIKE

Separate commercial identity. One A1 brand.

LinkedIn Company Page
A1 Truck & RV Center · Commercial & Fleet Collision Repair

Instagram
Commercial portfolio, process, scale and visual credibility.

Facebook
Local business presence and reusable fleet content.

Sponsored · fleet.a1bodyandglass.com
A1 Truck & RV Center | Fleet Collision Repair
Commercial body/collision repair in Pompano Beach.

Google Search
High-intent path to the fleet landing.

Subject: Backup collision repair capacity for your fleet

We are expanding relationships with local commercial fleets... A1 can serve as an additional or backup commercial collision repair resource.

B2B Email
Short, personal and directly from A1.

50

accounts

40

contacts

2-5

qualified

1-3

meetings

Account → decision maker → contact → response → meeting → opportunity → next action.

Management Dashboard
Visible B2B activity and pipeline.

Simple on the outside. Measurable on the inside.

A prospect sees only A1 Truck & RV Center. Each commercial touch is then tracked through the pipeline.

1

Target

Fleet company

2

Contact

Email · phone · LinkedIn

3

Conversation

Need or backup vendor

4

A1 Action

Call · tour · inspection

5

Pipeline

Estimate · job · next action

Example first-wave strategy: previous relationships first, then local service fleets such as HVAC, plumbing, distribution, contractors and other businesses operating multiple commercial vehicles.

What A1 receives ready to operate.

1 Fleet web presence

B2B landing ready for fleet.a1bodyandglass.com.

2 New commercial social identities

LinkedIn, Instagram and Facebook separate from existing channels.

3 B2B content starter system

Initial posts, profile copy, visuals and content direction.

4 Outbound campaign

Targets, decision makers, email, phone and LinkedIn sequence.

5 Commercial pipeline dashboard

Target → contact → reply → meeting → repair opportunity.

6 Measurement foundation

Analytics, campaign IDs and attribution structure.

7 Five-day performance report

Activity, responses, conversations, meetings and next actions.

8 30-day operating playbook

How the campaign continues after the launch sprint.

The existing A1 marketing operation does not need to be disturbed.

2

Technical items only

1. fleet.a1bodyandglass.com

DNS subdomain for the new B2B landing.

2. Email aliases

fleet@a1bodyandglass.com

commercial@a1bodyandglass.com

Aliases can route to Carlos; no new mailbox license is required if the email system supports aliases.

Everything else is created separately

New LinkedIn · New Instagram · New Facebook · Commercial content · B2B prospecting · Pipeline · Tracking · Reporting.

No changes required to the existing A1 Body & Glass social accounts.

At Day 5

The commercial campaign is live, outreach is active, the pipeline is visible and management has a measurable next-30-day plan.
